Byron Wedding, the young son of Dr. S. J. Wedding, of Rosine, sustaining severe injuries by a fall from a mulberry tree at Rosine Sunday. He will recover. A young man named Havens was with him and was dangerously hurt by a fall from the same limb.

Mrs. Harriet Bradley, wife of Coroner J. W. Bradley of near Rosine, will accept our thanks for some of the finest gooseberries we ever saw. Some of these berries measure three-fourths of an inch in diameter. She has gathered and sold from her vines about 30 gallons this season.

Young James Thomas, who was so terribly injured by a fall from a horse some months ago, is still lingering in a dangerous condition from the effects of his wound. His ankle, which suffered a terrible crushing, has never healed, and it is feared that he may yet succumb to the terrible suffering which he has borne so bravely and so long.

Sam Wallace's house, near Rosine, was burned at noon Sunday, only a few articles of furniture being saved. The fire originated from a defective flue in the kitchen, where dinner was being cooked. The house was a good farm-house almost new, and was worth \$900 or \$800. Mr. Wallace carried an insurance policy of \$500 on his house and furniture.

Sheriff J. P. Stevens took Columbus Morgan to the penitentiary at Frankfort, Ky., last Sunday and returned Monday night. Morgan was convicted of malicious wounding at the May term of court and sentenced to two years in the penitentiary. An appeal was asked and granted. The cause of the delay in taking him to the penitentiary was due to the order granting the appeal.

It may be of interest to applicants for store-keepers, gaugers and the small places that come under the Collectors to know that they must make their applications direct to the Collector, or whose recommendation appointments are approved or disapproved by the Secretary of the Treasury. A great many applicants for the minor positions referred to sent their papers on to the Secretary, thinking he makes the appointments. He has referred the papers to the Collectors. The applicants will save time and secure quicker action by addressing their applications and recommendations to the Collectors.

KILLED BY LIGHTNING.

SYLVESTER PETTY OF THIS COUNTY KILLED AT OWENSBORO.

The Fatal Stroke Came Without Warning—Others Have a Very Narrow Escape From Death.

PETTY WAS A GOOD MAN.

The Owensboro Messenger, of yesterday, says: Sylvester Petty was instantly killed by lightning about 5 o'clock yesterday afternoon, at the farm-house of M. L. Shreve, three miles from the city, on the Livermore road.

Petty, his brother, Jack Petty, and Mr. and Mrs. Shreve were sitting in the room talking while the storm was raging outside. Petty was sitting in a chair, tilted back against the jamb of the fire-place and had just begun to talk of some incident about the farm, when there was a blinding flash of lightning. All were blinded for an instant, and then they saw Sylvester Petty fall forward from the chair.

Mr. Shreve was the first to recover. Petty's clothing was on fire. He put this out and then found he was dead.

Petty's face was terribly lacerated and his right side was blackened. The shoe on his right foot was torn completely off. The electric fluid seemed to have passed from the face down his right side, the left side not being affected at all.

Jack Petty was sitting next to his brother and almost touching him. He was slightly shocked, but not injured in any way. Mr. Shreve was within four feet of him, and escaped uninjured. Mrs. Shreve was further away, but received a severe shock, and for a time her right side was paralyzed. She soon recovered from this, but is still almost prostrated with grief and fright.

The chimney was scarcely injured, only a few bricks being knocked off at the top. Several trees in the neighborhood were struck.

Petty was about 37 years old and unmarried. He was the son of Garrett B. Petty, of Ohio county. He had been living with Mr. Shreve since last February, helping him with the farm work. Speaking of his last night, Mr. Shreve said: "No better, truer man ever lived. We were raised together and were close companions in childhood. I never knew him to do an act to be ashamed of."

His parents were notified of the tragic death of their son last night. The remains will be taken to-day to Ohio county and buried in the cemetery at Pleasant Grove church. Mr. Petty was a consistent member of the Baptist church.

Beaver Dam High School.
On Thursday and Friday nights last, the people of Beaver Dam enjoyed a rich treat in the closing exercises of the High School for the year just closing. Perhaps no year's work on the part of educators ever closed with more unanimous expressions of approbation from patrons and pupils.

The entertainment of Thursday night was given by the Primary and Intermediate departments under the management of Miss Dora E. Gibson, and consisted in declamations, recitations, drills and music. Mrs. Dr. W. T. McKinney assisted in the music.

These classes showed superior tact and preparation, and the program, which was too long to be mentioned in detail, was rendered with splendid effect, eliciting the hearty applause of the densely packed house. The only thing to mar the pleasure was some disorder in the back of the house by some thoughtless persons.

On Friday night, Prof. E. B. Ray's Rhetoric class gave an entertainment, which consisted in analyses by fourteen of the girls and boys of the school. The audience was highly pleased with their efforts and expressions of approval have been heard from many lips. In such a large class of youthful minds, it might have been expected that some failure would occur, but not so, every single member of the class was fully up to point of success, showing wonderful system and thoroughness. The subjects were well chosen and beautifully discussed in plain, practical style. All this work was done without the loss of a single lesson in school.

Never has our little town been honored with so many visitors as during these exercises. Our neighboring city, Hartford, was largely represented by many of her distinguished citizens as well as young people. Your correspondent failed to get the names sufficiently to give anything like a correct list. McHenry, Taylor Mines, Cromwell and the surrounding country were well represented. The large school hall was full to overflowing and many occupied seats in carriages and buggies near the windows.

The school year just closed has been one of unusual success and the Faculty has the universal plaudits of all.

Your Boy Should Read This.
(New York Sun.)

It is to be regretted that so few of our American boys learn any trade, or are willing to serve as apprentices for the terms of three or four years. Almost any good and smart boy can procure employment in some one of the hundreds of skilled industries that are carried on in the towns and cities, and the boy who serves his apprenticeship faithfully gets a training that will be advantageous to him all through life, and that will very surely enable him to earn a living as long as he lives.

We should suppose that any real sensible boy would like to think of becoming a skilled workman in a good trade; would like to look forward to the time when he could stand up as an independent master, for example, in the carpenter's trade, or the brass workers, or the stonemason's, or the printer's, or the watchmaker's, or the bookbinder's, or the fresco painter's, or the machinist's, or the locksmith's, or the

gilder's, or some other trade worthy of his manhood.

It is a splendid thing for a young fellow to start out in the world with a good trade. He can nearly always get a job at good pay, and can often have a chance of traveling to different parts of the country to look for a better job at higher pay. What long-headed American boy would not like to have such a show in life?

Yet a vast number of our American boys don't want to learn a trade. They are anxious to be office boys, or counter jumpers, or sales boys, or clerks, or something of that kind, thinking they will strike something easy. Stupid fellows, when they have a chance to become skilled mechanics! Why, we were told by a gentleman the other day that he knew of three youthful Americans who were serving as door boys in a large uptown six-story apartment house. What show for promotion have they? They can hardly hope even to get a janitorship.

We say that boys who need to earn a living, will do well to learn a trade, and then strike out in life, free as the American flag.

Master Baird Taylor, the little crippled son of Dr. and Mrs. V. M. Taylor, who is visiting his grandmother, Mrs. A. B. Baird, happened to a very painful accident last Thursday. He went to Mr. Evans Cornlius' who lives just across the street, to spend a short time playing with Cornelius' little child. Mr. and Mrs. Cornelius went out in the garden and left the boy, their child and a dog in the house, soon after they left they heard a scream, and running into the house found the dog making a vicious attack on the boy, and before they could get control of the canine, he had bitten the boy several times, making some very bad wounds on his face and neck. Dr. Pondleton was called and dressed the wound. He is able to be out.

BAN.

For Sunstroke.
In view of the arrival of the hot season the Philadelphia Police Department has issued the following directions for the course of treatment to be pursued in case of sunstroke. Everyone should be familiar with these rules:

Remove the patient to a cool and shady place, where there is plenty of fresh, pure air. Strip the clothing to the waist and place the sufferer in a recumbent position. Pour cold water (ice water) upon the head and chest and wrist until consciousness returns. Apply ice to the head and rub the body with it; but if the skin is cold no ice should be applied. When practicable the patient should be put into a bath at 70 degrees to reduce the temperature.

In heat exhaustion stimulants should be given freely, and, if the temperature is below normal, as shown by the skin being cold and clammy, the hot bath should be used. Ammonia and water may be given if necessary.

The subject of sunstroke is liable to a second attack, and should do no mental work for months and keep from all excitement.

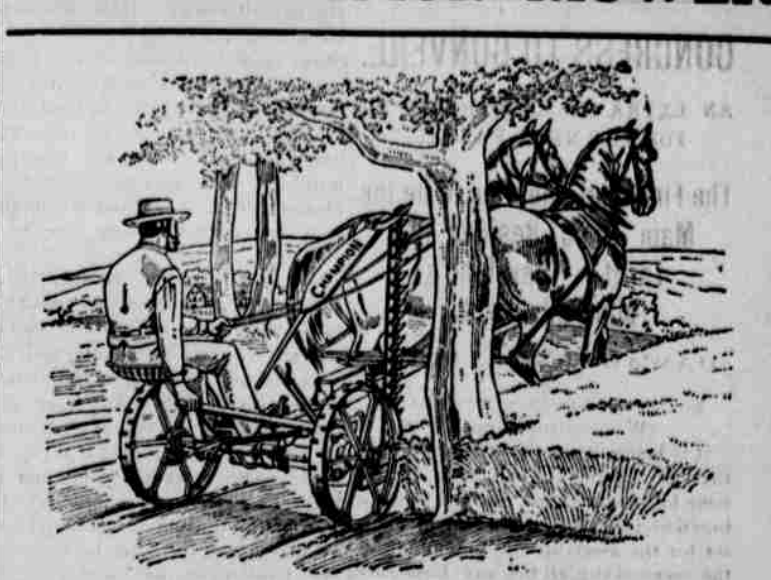

Frank Leslie's Popular Monthly for July.

All the leading features of FRANK LESLIE'S POPULAR MONTHLY for July possess timely and seasonable interest, in addition to their intrinsic attractiveness. Conspicuous amongst these are Valerian Gribayedoff's article upon "The Sailors of the Casar," illustrated with portraits, scenes on board the Dmitri Donaskoi, and pictures of the other vessels of the Russian fleet at present sojourning in American waters. Then there is an intimate personal sketch of the Infanta Eulalia, our royal Spanish visitor, by G. Stanton Sickles, with a charming portrait reproduced from her favorite photograph. L. J. Vance writes appreciatively of "Metropolitan Life in Summer." Belle Hunt of "Hay Ranching in Texas," and Robert Y. Toombs of "Gulf Coast Turpentine Orchards." Other important illustrated articles are "The Paris Salon," by Henry Tyrrell; "Greenland and Its Mysteries," by Mary Titcomb; "Dalmatia and Albania," by T. G. Bonney; "The News World of London," by Edward Porritt; and "Sharks of the Indian Ocean," by Colonel Nicolas Pike.

TAX NOTICE.

Your taxes for the year of 1893 are now due and unpaid, and as I have been delayed in the collection of same for more than sixty days, owing to the change in the time of assessment, I will expect and must insist that you call on me or my deputies and settle at once. The short time I have to collect and meet the settlements with the State and county, will require promptness on your part. So please don't delay, but pay your tax at once. This June 13, '93. J. P. STEVENS, Sheriff of Ohio county.

THE CHAMPION MOWER

The greatest novelty for farmers, known as the wabble geared machine, stands at the head for durability, convenience, light draft, &c. Some important reasons why a farmer should buy the Champion:

1. Less gearing and less joints to wear and work loose than on other mowers.
2. Wear or waste motion, whether in journals or gears, easily taken up.
3. It is most substantial and durable.
4. The only mower that the bar will fold down as well as up.
5. The only mower on which the knife will run when the bar is placed in an upright position.
6. There are no clutches or springs to get out of order.
7. The arm gives motion to the knife without a single joint between the gear and pitman.
8. It is the only mower on which lost motion can be taken up without getting new parts.
9. The oscillating gear moves only one-eighth of an inch on its bearings at each throw of the knife.
10. It has no frame hanging down to come in contact with obstructions.
11. The pitman has no swaying motion, but moves in a straight line.
12. It is a wide tread, light draft, powerful and easy cutter.

Come and see us before buying. We can save you money on Machines and Rakes. We get them both in car lots and are ready to do better by you than others can.
